The target score for the team batting second shall be calculated according to the pro rata run rate achieved by the team batting first. However, where the team batting first has been bowled out in less than its allotted number of overs (the duration of one innings or a reduced number due to bad weather) and in the event of the second innings being interrupted by bad weather, the overs to be deducted will be calculated taking into account those remaining from the first innings (see examples in Appendix 1).
b) It might occur that an interruption to the second innings may result in the side batting second not having the opportunity to receive the same number of overs as the side batting first. If no further overs are possible, but the team batting second
   i) has not batted for at least two fifths (in a one-day game) of the overs scheduled in accordance with Section 15, paragraph 2, or
   ii) in T20 cricket for at least 5 overs
      a fictive score is calculated based on the run rate in the second innings at the point the match was interrupted (see examples in Appendix 1).

   c) The game shall be considered a no-result in accordance with paragraph 4b, if the team batting second
      i) did not bat for at least 2/5 of their total overs in a one-day game, or
      ii) in a T20 game for at least 5 overs.

5) Lost balls

   If a ball should be lost, a replacement ball must be used after two minutes of searching. Each team is required to provide a selection of replacement balls.

6) Slow over rates

   a) If the team fielding first fails to bowl its allotted overs in the time allowed then play shall continue until the allotted overs have been bowled.
   b) If the team fielding second fails to bowl its allotted overs in the time allowed, the hours of play shall be extended until the full number of allotted overs has been bowled or a result achieved.
   c) Where the umpire considers the slow over rate to clearly be the fault of one of the sides, that side will be reported to the league management
      i) In league games, the club involved shall be issued a formal warning. If a team is cautioned twice in the same season, it will be deducted one league point from their total league score.
      ii) In the case of knock-out games, the club involved shall receive a fine of EUR 200.00.
   d) Neither team shall be penalised for time lost due to serious incidents, such as injuries, lost balls or other unforeseen events interrupting play.

19. Wicket Put Down

   If the umpires agree not to use bails (in accordance with Law 8.5 of the MCC Laws of Cricket) the relevant umpire shall decide if the wicket has been put down.
After deciding to play without bails, the wicket is considered put down when the relevant umpire is convinced that the wicket was hit by the ball, the bat, the batsman’s body, a part of his/her clothing or equipment.

If the spring-loaded or standard stumps are already broken or otherwise incomplete, the wicket is considered put down if one of the fielder holds the wicket in the air, providing he/she keeps the ball in contact with the wicket.

   b) does not lose in accordance with paragraph 3b.

3) An outcome in accordance with paragraph 1b is awarded to the team that
   a) does not win in accordance with paragraph 2 or or with paragraph 6, or
   b) cancels, does not compete in or interrupts a scheduled fixture in accordance with Section 9, paragraphs 4e and g of the DCB-SPO and Section 5 of the DCB-SO.

4) An outcome in accordance with paragraph 1c shall be awarded pursuant to Law 21.5a of the MCC Laws of Cricket. In addition, Section 19, paragraphs 3 and 4 of the DCB-SPO shall also apply in the case of interrupted games.

5) An outcome in accordance with paragraph 1d shall occur
   a) pursuant to Section 18, paragraph 3d (no play possible) or
   b) pursuant to Section 18, paragraph 4c (insufficient number of overs played) or
   c) Section 8, paragraph 4d.

6) In the case of knock-put games, an outcome in accordance with paragraph 1c is not possible. If, in such a game, the number of runs is equal after the scheduled duration of play, irrespective of the number of wickets that have fallen, the winner shall be determined as follows:
   a) A Super Over shall be played in accordance with paragraph 7.
   b) If no winner can be determined from the Super Over, a Bowl Out shall be held in accordance with paragraph 8.
   c) If no winner can be determined after the Super Over and the Bowl Out, or paragraphs 6a and b cannot be implemented due to inclement weather or paragraph 1d occurs, the match shall be replayed on the scheduled alternative date. If there is no such alternative date or if, on the scheduled alternative date, again no result can be achieved, the game will be decided by a one-off coin toss.
7) Super Over

a) The start of the Super Over shall be determined by the umpires. Under normal circumstances, it should start ten minutes after the end of regular playing time.
b) Time not used during the regular playing period should be used for the Super Over.
c) The fielding team in both innings of the Super Over will choose which end they wish to bowl from.
d) Only nominated players in the main game may participate in the Super Over. The MCC Laws of Cricket regarding substitute players, including those for batsmen and bowlers, shall apply.
e) Fielding restrictions enforced outside of Powerplays, where applicable in the particular championship, shall apply in both overs of the Super Over.
f) The team batting second in the main game shall bat first in the Super Over.
g) The ball used in the last innings of the main game shall also be used for both overs.
h) When two batsmen are out during a Super Over innings, that innings is concluded.
i) The team with the most runs scored wins the Super Over and is the winner of the knockout game.
j) If, at the end of the Super Over, both teams have the same number of runs, irrespective of the number of wickets down, it is considered a tie and a Bowl Out then follows.

8) Bowl Out

a) Five players from each side bowl one ball each from wicket to wicket (in accordance with Law 8 of the MCC Laws of Cricket). The distance between the wickets and line markings shall conform to Law 9 of the MCC Laws of Cricket.
b) The teams shall toss a coin to determine which team bowls first, in accordance with Section 15 of the DCB-SPO.
c) The first bowler of Team A (starting) then bowls a ball, then the first bowler of Team B, then the second bowler of Team A, and so on. The team that puts down the wickets most often after the five attempts wins the Bowl Out and the game.
d) If both teams put down the wickets the same number of times, the same players bowl again, whereby the sequence of bowlers may differ from the first attempt. A comparison is then made of each pair of bowlers. As soon as one of two bowlers breaks the wicket and the opposing bowler does not, the team of the bowler breaking the wickets shall win the match. Should both bowlers fail to break the wickets, or both do, the next pair of bowlers in the series shall bowl until a decision is reached. If there is still no decision after the five pairs of bowlers have bowled, they will try again in the same order. The team that wins the head-to-head comparison, wins the Bowl Out and is the winner of the game.
21. League position

If two or more teams have the same number of league points, their league positions shall be decided in this order:

a) according to Net Run Rate (to three decimal places)
b) according to the results of the games between the teams
c) according to the number of games won by the respective teams
d) If no winner can be determined after this procedure, the competing teams shall draw lots.

22. Player Behaviour

The regulations and ideals of the game of cricket shall be strictly applied. Every incident of misconduct (for example, aggressive behaviour towards umpires or opponents, dissenting an umpire's decision by word, deed or gestures, the use of abusive language on and off the playing field) shall be reported to the League Management by the umpires. The League Management will then apply any measures in accordance with the DCB-SPO, where necessary in cooperation with the DCB Sports Committee (DCB Sportausschuss).

23. Playing Wear

1) All players of the same team must wear coloured sportswear suitable for cricket. White clothing is no longer permitted. All players must wear the same sportswear. If other playing wear is required or allowed for championships, this shall be further stipulated in the Special Playing Conditions.

   b) Both Match Report Sheets must be completed in full before the start of the game. One of the sheets shall remain with the umpires and the other with the scorers for the duration of the match.

   c) The winning team must submit the DCB Match Report Sheet to the League Management by email as a scanned attachment. In the event of the match ending in a tie or no result, the DCB Match Report Sheet must be submitted to the League Management by the home team. The Match Report Sheet is only valid if it is completed in full. Before the game begins, all players involved in the game, substitutes and the manager of both teams and the officials must be entered on the sheet. In addition, the game details on the DCB Match Report Sheet and the Match Result, consisting of runs, wickets and completed overs per inning, must also be entered. The document is only valid if it is signed by both captains and the umpires, if present.

3) The DCB Umpire Assessment Form must be sent to the League Management as a scanned PDF file via email by BOTH teams. The Form must be filled in completely. The League Management shall determine whether this is necessary for the respective championship.

4) Both teams must enter the match result on CricHQ. This includes recording the entire scorecard for both innings. Other regulations are determined by acceptable usage policies.
26. Wide Ball

Umpires are instructed to apply a very strict and consistent interpretation of the Laws to prevent bowlers bowling balls that pass a long way from the batsman.

a) The ball will be considered by the umpires as passing wide of the striker unless it is sufficiently within his reach for him to be able to hit it with his bat by means of a normal cricket stroke on the off side.

b) Every ball passing the batsman on the leg side shall be considered a Wide Ball.

c) A penalty of one run shall be awarded instantly on the call of Wide ball. This penalty is awarded in addition to any other runs scored. All runs completed by the batter or the Wide Ball itself that are not No Balls shall be scored, together with the penalty for the Wide, as Wide balls.

27. Dangerous Play (Bowling)

A bowler shall be limited to one fast short pitched delivery per over, defined as a ball which, after pitching, passes or would have passed above the shoulder height of the striker standing upright at the popping crease.

a) The umpire at the bowler’s end shall advise the bowler and the striking batsman when a fast short pitched delivery has been bowled.

b) If a second fast short pitched delivery is bowled in the same over, the umpire shall call and signal No ball.

c) Should there be any further instance by the same bowler in that innings, the umpire shall suspend the bowler immediately from bowling again in that innings. If applicable, the over shall be completed by another bowler, who shall neither have bowled any part of the previous over, nor be allowed to bowl any part of the next over.
B Appendix 1 - examples relating to Section 18

Example relating to Section 18, paragraph 3a

1) Example: One-day cricket
   a) Where 40 minutes of the first innings are lost, 10 overs are deducted from the match total of 100 overs, leaving a revised match total of 90 overs. Each team would therefore have 45 overs each. The team batting second is always entitled to the revised total number of overs allowed to the team batting first, even if the latter have been bowled out for less.
   b) Where 30 minutes of the first innings are lost, 7 overs (7x4+2=30) are deducted from the match total of 100 overs leaving a revised match total of 93 overs. Rounding this down, each team would therefore have 46 overs each.

2) Example: T20 Cricket
   a) Where 16 minutes of the first innings are lost, 4 overs are deducted from the match total of 40 overs, leaving a revised match total of 36 overs. Each team would therefore have 18 overs each. The team batting second is always entitled to the revised total number of overs allowed to the team batting first, even if the latter have been bowled out for less.
   b) Where 20 minutes of the first innings are lost, 5 overs are deducted from the match total of 40 overs leaving a revised match total of 35 overs. Rounding this down, each team would therefore have 17 overs each.

Example relating to Section 18, paragraph 3b

1) Example: One-day cricket
   a) The side batting first has played only 35 overs when bad weather stops play. When play can be resumed it is found that because of the delay the match total is now only 70 overs, i.e., 35 overs each. In this case, the first innings is automatically closed and the side batting second will only bat for 35 overs.
   b) The side batting first has played only 36 overs when bad weather stops play. When play can be resumed it is found that because of the delay the match total is now only 70 overs, i.e., 35 overs each. In this case the first innings is automatically closed and the side batting second will receive only 34 overs (the target being revised based on run-rate, see Section 18).

2) Example: T20 Cricket
   a) The side batting first has played only 18 overs when bad weather stops play. When play can be resumed it is found that because of the delay the match total is now only 36 overs, i.e., 18 overs each.
In this case, the first innings is automatically closed and the side batting second will only bat for 18 overs

b) The side batting first has played only 18 overs when bad weather stops play. When play can be resumed it is found that because of the delay the match total is now only 34 overs, i.e., 17 overs each. In this case the first innings is automatically closed and the side batting second will receive only 16 overs (the target being revised based on run-rate, see Section 18).

Examples relating to Section 18, paragraph 4a

1) **Example: One-day cricket**
   The team batting first scores 200 all out in their innings (the number of overs used is irrelevant). This is equivalent to a run rate of 4 runs per over in an innings of 50 overs. Should 10 overs be lost to bad weather, the team batting second would have to achieve a total of 161 to win the match. \((40 \text{ [overs]} \times 4 \text{ [run rate]} + 1 \text{ [run]} = 161 \text{ [runs]})\)

2) **Example: T20 Cricket**
   The team batting first scores 100 all out in their innings (the number of overs used is irrelevant). This is equivalent to a run rate of 5 runs per over in an innings of 20 overs. Should 5 overs be lost to bad weather, the team batting second would have to achieve a total of 76 to win the match. \((15 \text{ [overs]} \times 5 \text{ [run rate]} + 1 \text{ [run]} = 76 \text{ [runs]})\)

Examples relating to Section 18, paragraph 4b

1) **Example: One-day cricket**
   The side batting first scores 200 runs in 50 overs (run rate of 4 runs per over). The side batting second scores 161 runs in 40 overs in an innings interrupted due to bad weather (4.02 runs per over). In this case, the team batting second wins the match. If the side batting second has a lower run rate, then the side batting first wins the match.

2) **Example: T20 Cricket**
   The side batting first scores 100 runs in 20 overs (run rate of 5 runs per over). The side batting second scores 76 runs in 15 overs in an innings interrupted due to bad weather (5.07 runs per over). In this case, the team batting second wins the match. If the side batting second has a lower run rate, then the side batting first wins the match.

Additional Playing Regulations

1.C.1 Match Ball
   Only DCB approved match balls may be used.

2.C.1 Number of Overs Per Bowler

   No bowler may bowl more than 10 overs in an inning. This shall not change for
   interrupted or delayed games, however, the numbers are reduced in accordance
   with the revised number of overs.

   (Example: In an interrupted match where the number of overs per inning is revised to 36,
   one bowler may not bowl more than 8 overs and 4 bowlers may not bowl more than 7
   overs (8 x 1 and 7 x 4, or when the revised number of overs is 30, no bowler may bowl more
   than 6 overs.)

3.C.1 Fielding Restrictions

   1) There may never be more than five fielders on the leg side at the instant of delivery.

   2) In addition to fielding restrictions listed in paragraph 1, the following
      restrictions shall apply to certain periods during the match:

      a) During the first 15 overs of an inning, the following fielding
         restrictions (Powerplay) shall apply.

      b) Two semi-circles shall be drawn on the field of play to indicate the inner circle or
         restricted fielding area. The semi-circles shall have as their centre the middle
         stump at either end of the pitch. The radius of each of the semicircles shall be 30
         yards (27.43 metres). The semi-circles shall be linked by two parallel straight lines
         drawn on the field. The resulting area should be marked either with solid white
         lines or “dots” placed at the distance of 5 yards (4,57 meters) apart. Each of these
         ‘dots’ is to be marked by a white plastic or rubber (but not metal) disc measuring 7
         inches (18 cm) in diameter.

      c) During the Powerplay only two fielders shall be permitted outside this
         restricted fielding area at the instant of delivery.

      d) Once the Powerplay is complete, no more than five fielders shall be permitted
         outside the restricted fielding area at the instant of delivery, as described in
         paragraph 2b.
3) In games where the number of overs is reduced in one or both innings, the Powerplay overs shall also be reduced according to the table below.

<table>

4) If an innings is interrupted during a Powerplay over and the game is resumed with the total number of overs being reduced and the required number of Powerplay overs is complete, the remaining balls in the over are no longer part of the Powerplay.

5) If the above fielding restrictions are not adhered to then the square leg umpire shall signal “No Ball”.

Matches
4.C.1 League Divisions

1) The DCM has three Divisions, they are called the Bundesliga (National Division), the Regionalliga (Regional Division) and the Verbandsliga (Club Division). The Bundesliga (National Division) is the highest Division, the Regionalliga (Regional Division) is the second highest and the Verbandsliga (Club Division) is the third highest.

2) The Boards are not obligated to implement a Verbandsliga (Club Division) but may introduce one at their discretion.

3) The licensing class for clubs is the same as the division. Clubs are represented in the divisions by their assigned teams.

5.C.1 Bundesliga (National Division)

1) The Bundesliga (National Division) is the highest division of the DCM. Where clubs meet licensing criteria and have been issued a license, they may participate with one team in that division.

2) The Bundesliga (National Division) is divided into preliminary and final rounds. The preliminary round is divided into groups, the membership of a group is determined by the regional origin of the club or membership of a Regional or State Board.
The groups are called and include the following federal states:

a) Bundesliga-Nord: Schleswig-Holstein, Mecklenburg-Western Pomerania, Hamburg, Bremen and Lower Saxony
b) Bundesliga-Ost: Brandenburg, Berlin, Saxony, Thuringia and Saxony-Anhalt

All groups are played as a group round, therefore, each division is played without knockout games. The division must include a home and away round.

The team that leads the table after the last round of matches in the respective Bundesliga (National Division) qualifies for the DCM finals and the club is awarded the championship title in accordance with paragraph 4.

The DCM Finals consist of knockout games only and are structured as follows:

a) Teams in the Bundesliga (National Divisions) from which the “Deutsche Cricketmeister” or the “Deutsche Vize-Cricketmeister” originated in the previous year automatically qualify for the semi-final.

b) Taking account of paragraph 7a, there are two quarter-finals,
   i) two champions from the Bundesliga-Nord, Bundesliga-Ost and Bundesliga-West play in the Viertelfinale-Nord (Quarter-Final North),
   ii) two champions from the Bundesliga-Mitte, Bundesliga-Südost und Bundesliga-Südwest play in the Viertelfinale-Süd (Quarter-Final South),

8) The team that wins the DCM Final, wins the Deutsche Cricketmeisterschaft and the club will be awarded the title of Deutsche Cricketmeister. The loser of the final will be awarded the title of Deutsche Vize-Cricketmeister.

6.C.1 Regionalliga (Regional Division)

1) The Regionalliga is one Division below the Bundesliga and one Division above the Verbandsliga. The winner of this Division in each group is crowned Regionalmeister (Regional Champion). Winners and losers of this Division are promoted or relegated into the other Divisions. Clubs may have several teams participating in this Division.

2) The Regionalliga is divided into several groups. They are played independently of each other and are linked to their region’s respective Bundesliga group. The membership of a group is determined by the regional origin of the club or membership of a Regional or State Board.

3) The groups are called and include the following federal states:
   a) Regionalliga-Nord (Regional Division North): Schleswig-Holstein, Mecklenburg-Western Pomerania, Hamburg, Bremen and Lower Saxony
   b) Regionalliga-Ost (Regional Division East): Brandenburg, Berlin, Saxony, Thuringia and Saxony

e) Regionalliga-Hessen: “Hessische Cricketmeisterschaft”, “Hessische Meisterschaft”, “HCM” and “Hessischer Cricketmeister”,

f) Regionalliga-West (Regional Division West): “Westdeutsche Regionalmeisterschaft im Cricket”, “Westdeutsche Regionalmeisterschaft”, “WDCM” and “Westdeutscher Regionalmeister im Cricket”.

5) The groups can have group preliminary and final rounds, but they should be played as group rounds where possible. Group preliminary and final rounds can be played in subgroups. All groups are to be played in a league format and not as knockout games. Further details are contained in paragraph 6.

7.C.1 Verbandsliga (Club Division)

1) The Verbandsliga (Club Division) is the subordinate Division to the Regionalliga, it determines the Verbandsmeister (Club Champion) in various groups and determines promotion to the Regionalliga only. Clubs may have several teams participating in this Division.

2) The Verbandsliga is divided into several groups. They are played independently of each other and are linked to their region’s respective Regionalliga group. The membership of a group is determined by the regional origin of the club or membership of a State Board.

3) There may be no fewer than five teams in the Bundesliga (National Division).

4) There may be no more than ten teams in the Bundesliga (National Division)
9.C.1 Promotion and Relegation

1) Clubs can be promoted and relegated among the Divisions within the DCM. Promotion and relegation are linked to the fulfilment of licensing criteria and always occur in the next season. If a club is not licensed for a particular Division, no team from that club may participate in that Division. In order for a club to remain in a particular Division, it must meet all the licensing criteria of that Division.

2) Teams can be promoted within a group to a higher Division of the DCM. Teams can also be relegated within a group to a lower Division.

3) If there is no higher or lower Division into which a club can be promoted or relegated, that club remains in the same Division.

4) The sporting criterion refers to the placing of a club team after the final match day of the Division. It is the task of the club to meet administrative and organizational criteria.

5) Promotion and relegation relating to sporting criteria (Bundesliga/Regionalliga)

   a) Assuming a club has met the administrative and development criteria required to obtain a license for the Bundesliga or to remain in the Bundesliga, then the sporting licensing criterion determines whether a club may be promoted or relegated.

   b) If a regional Bundesliga has up to six teams, a club or team from that club is relegated when its team finishes in last place after the final match day of the Bundesliga.

   c) If a regional Bundesliga has between seven and ten teams, two clubs or teams from that club are relegated when the teams finish in the two lowest places after the final match day of the Bundesliga.

   f) If a relegated team comes from the same club as a promoted team and the sporting criterion for the club has been met for those Divisions, then the club may continue to play in both Divisions.
g) The Regional or State Boards shall inform all clubs and the DCB of the mode of promotion and relegation in their regions before the end of March in writing.

6) Promotion and relegation relating to sporting criteria (Regionalliga/Verbandsliga)

a) The mode of promotion and relegation between the Verbandsliga and Regionalliga shall be regulated individually by each Regional or State Board.

b) The Regional or State Boards shall inform all clubs and the DCB of the mode of promotion and relegation in their regions before the end of March in writing.

7) Promotion and relegation irrespective of the sporting criterion
